

# **MATERIAL SAFETY DATA SHEET**

RICHARD'S PAINT COMPANY PROD. #700 DATE PRINTED: 04/01/2014 DATE REVISED: 12/17/2013

## **SECTION 1 – PRODUCT AND COMPANY IDENTIFICATION**

PRODUCT CODE:	#700
PRODUCT NAME:	SIGNATURE SERIESD ALKYD SEMI-GLOSS WHITE
MANUFACTURER'S NAME:	RICHARD'S PAINT COMPANY
	200 PAINT STREET
	ROCKLEDGE, FL 32955

**Telephone Numbers and Websites:** 

Product Information	(800)-432-0983
	www.richardspaint.com
Medical Emergency – ChemTrec	(800)-434-9300
* Transportation Emergency – ChemTrec	(800)-434-9300
* for Chemical Emergency ONLY (spill, leak, fir	e, exposure, or accident)

# SECTION 2 – COMPOSITION / INFORMATION ON INGREDIENTS

Component / Occupational Exposure Limits			CAS No.	% By Weight
Titanium Dioxide		No Exposure Limits Established	13463-67-7	27.03
NAPHTHA MEDIUM ALIPHATIC			64742-88-7	15.1% - 20.0%
ALIPHATIC HYDROCARBON	OSHA PEL:	500 ppm	8052-41-3	10.1% - 15.0%
(M. SPIRITS)	ACGIH TLV:	100 ppm		
* Xylene	OSHA PEL-TWA:	100 ppm	1330-20-7	.70
	ACGIH TLV:	100 ppm		
	ACGIH TLV-STEL:	150 ppm		
Ethylbenzene			100-41-4	.17
* ETHYLBENZENE	OSHA PEL-TWA:	100 ppm	100-41-4	.11
	ACGIH TLV-TWA:	100 ppm		
	ACGIH TLV-STEL:	125 ppm		

# **SECTION 3 – HAZARDOUS IDENTIFICATION**

#### SIGNAL WORD: Danger

#### **HMIS CODES**

Health	2
Flammability	2
Reactivity	0
Personal Protection	

#### HEALTH AND PHYSICAL IDENTIFICATION

Coating contains no physical or health hazards.

ROUTES OF EXPOSURE	TARGET	ORGANS
Inhalation: Yes	Blood:	No
Skin Contact: Yes	Eyes:	Yes
Eye Contact: Yes	Kidneys:	Yes
Ingestion: Yes	Liver:	Yes
	Lungs:	Yes
	Central Nervous System:	Yes
	Reproductive:	Yes
	Skin:	Yes

#### EFFECTS OF OVEREXPOSURE

- **INHALATION:** Avoid breathing vapors or mists. Symptoms may include coughing, sore throat, labored breathing, and chest pain. Central nervous system depression with nausea, dizziness, headache or stupor.
  - **SKIN:** Mildly irritating but not a skin sensitizer. Symptoms may include redness, burning, and swelling of skin.
  - **EYES:** Avoid contact with eyes. Contact with eyes may cause irritation.

**INGESTION:** May be harmful if swallowed.

**OTHER:** No data found.

## **SECTION 4 – FIRST AID MESURES**

INHALATION:	If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult give oxygen. Get medical attention.
SKIN CONTACT:	Remove and wash contaminated clothing before re-use. Wash off immediately with soap and plenty of water. If irritation occurs, seek medical attention.
EYE CONTACT:	In case of eye contact, flush the eyes with water for 15 minutes. If contact lenses are worn, quickly remove them then flush the eyes with plenty of water. If irritation persists, have a physician examine the eyes.
INGESTION:	Seek immediate medical attention. Do not induce vomiting. If vomiting occurs spontaneously, keep the head below the hips to prevent aspiration of liquid into the lungs.
NOTE TO PHYSICIAN:	Treat symptomatically.

# **SECTION 5 – FIRE FIGHTING MEASURES**

Flash Point: Explosion Limits: Lower (LEL): Upper (UEL):	103°F 1.00% 6.00%	Method Used: PMCC
FLAMMABILITY CLASSIFICATION	:	Combustible. Flash above 99 and below 200°F.
EXTINGUISHING	MEDIA:	Carbon dioxide (CO2). Dry chemical. Foam. Water may be ineffective. If area is heavily exposed to fire and if conditions permit, let the fire burn itself out since water may increase the area contaminated. Use dry chemical, CO2, water spray or "alcohol" foam.
SPECIFIC METHO	DS:	If potential for exposure to vapors or products of combustion exists, wear full fire fighting turnout gear and NIOSH approved self-contained breathing apparatus. In the event of fire, cool containers/tanks with water spray. Keep personnel removed from and upwind of fire.
UNUSUAL HAZAI	RDS:	Closed containers may explode (due to the build-up of pressure) when exposed to extreme heat. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.

# **SECTION 6 – ACCIDENTAL RELEASE MEASURES**

PERSONAL PRECAUTIONS:	Avoid contact with skin, eyes and clothing. Use appropriate personal protective equipment. For guidance on selection of personal protective equipment see Section 8, "Engineering Controls and Personal Protection Equipment" of this SDS. Ensure adequate ventilation. Remove all sources of ignition, use spark-proof tools and explosion-proof equipment.
ENVIRONMENTAL PRECAUTIONS:	Prevent this material from entering sewers and watercourses by diking or impounding the spilled material. Advise authorities if the product has
	entered or may enter sewers, watercourses, or extensive land areas.
METHODS FOR CLEANUP:	Soak up with inert absorbent material. Sweep up and shovel into suitable covered containers. Dispose of according to all applicable federal, state and local regulations. Use non-sparking tools (bronze, aluminum, plastic, wood) to clean up spill.

## **SECTION 7 – HANDLING AND STORAGE**

HANDLING: Contents are COMBUSTIBLE. Keep away from heat and open flame. Consult NFPA Code. Use approved Bonding and Grounding procedures. Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Do not take internally. Keep out of the reach of children. To minimize the possibility of spontaneous combustion: control the accumulation of overspray; soak wiping rags and waste immediately after use in water-filled, closed metal container; air dry filters outside, far from any combustible material and separated by bricks or other non-combustible spacers; dispose of all contaminated materials and waste properly. Consult OSHA 29 CFR 1910.107(b)(5) and NFPA 33, Chapter 8 (8-9) for the proper procedures.

STORAGE CATEGORY: DOL Storage Class II

#### SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

ENGINEERING CONTROLS:	Use only with adequate ventilation. Avoid contact with skin and eyes. Avoid breathing vapor and spray mist. Wash hands after using. This coating may contain materials classified as nuisance particulates (listed "as Dust" in Section 2) which may be appeared by a particulate splut during an advantage of the section and
	2) which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in Section 2, the applicable limits for nuisance dusts are ACGIH TLV 10 mg/m3 (total dust), 3 mg/m3 (respirable
	fraction), OSHA PEL 15 mg/m3 (total dust), 5 mg/m3 (respirable fraction).
<b>RESPIRATORY PROTECTION:</b>	Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section 2 is maintained below applicable exposure limits. Refer to
	OSHA Standards 1910.94, 1910.107, 1910.108. If personal exposure cannot be
	controlled below applicable limits by ventilation, wear a properly fitted organic
	vapor/particulate respirator approved by NIOSH/MSHA for protection against
	materials in Section 2. When sanding or abrading the dried film, wear a
	dust/mist respirator approved by NIOSH/MSHA for dust which may be
	generated from this product, underlying paint, or the abrasive.
HAND PROTECTION:	Wear solvent-resistant gloves (butyl rubber or neoprene). Gloves should be
	replaced immediately if signs of degradation are observed.
EYE PROTECTION:	Wear safety glasses with side-shields. If extra protection is required; wear a
	face-shield over the safety glasses or splash goggles. Face-shields are only
	effective if worn in addition to safety glasses or splash goggles. An emergency eye wash should be readily available.
SKIN PROTECTION:	Wear a chemical-resistant, butyl-rubber apron and other protective clothing, as
Skin PROTECTION.	deemed appropriate, to avoid skin contact with material. Safety showers should
	be readily available.
OTHER DATA:	Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.

## **SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES**

PHYSICAL STATE:	Liquid
VAPOR DENSITY:	Heavier Than Air
ODOR:	N/A
DENSITY:	10.17 lb/gl.
SPECIFIC GRAVITY:	1.22
BOILING POINT:	148 - 201°C (300 - 395°F)
EVAPORATION RATE:	Slower Than Ether
VOC LESS WATER:	388 g/l
PERCENT VOLITILE BY VOLUME:	49.61%
Ph:	Not Determined

#### **SECTION 10 – STABILITY AND REACTIVITY**

CHEMICAL STABILITY:StableINCOMPATIBILITY:No daHAZARDOUS DECOMPOSITION PRODUCTS:By fireHAZARDOUS POLYMERIZATION:Hazar

Stable under recommended storage conditions. No data found. By fire: Carbon Dioxide, Carbon Monoxide. Hazardous polymerization does not occur.

#### **SECTION 11 – TOXICOLOGICAL INFORMATION**

Ingredient	CAS NO.	Oral LD50 Rat	Dermal LD50 Rat	Inhalation LC50 Rat
ETHYBENZENE	100-41-4	3500 mg/kg	Rabbit 15354 mg/kg	17.2 mg/L 4 h
TITANIUM DIOXIDE	13463-67-7	> 900 mg/kg	> 2000 mg/kg	
SOLVENT NAPHTHA (PETROLEUM),	64742-88-7	> 5000 mg/kg	Rabbit 3000 mg/kg	> 5.28 mg/L 4 h
MEDIUM ALIPHATIC				

**CHRONIC TOXICITY:** Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

CARCINOGENIC EFFECTS: Ethylbenzene is classified by IARC as possibly carcinogenic to humans (2B) based on inadequate evidence in humans and sufficient evidence in laboratory animals. Lifetime inhalation exposure of rats and mice to high ethylbenzene concentrations resulted in increases in certain types of cancer, including kidney tumors in rats and lung and liver tumors in mice. These effects were not observed in animals exposed to lower concentrations. There is no evidence that ethylbenzene causes cancer in humans. IARC's Monograph No. 93 reports there is sufficient evidence of carcinogenicity in experimental rats exposed to titanium dioxide but inadequate evidence for carcinogenicity in humans and has assigned a Group 2B rating. In addition, the IARC summary concludes, "No significant exposure to titanium dioxide is thought to occur during the use of products in which titanium is bound to other materials, such as paint".

**REPRODUCTIVE TOXICITY:** No data found.

#### **SECTION 12 – ECOLOGICAL INFORMATION**

No Data Available.

# SECTION 13 – DISPOSAL CONSIDERATIONS

METHOD:	Waste from this product may be hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261. Waste must be tested for ignitability to determine the applicable ERA hazardous waste numbers. Incinerate in approved facility. Do not incinerate closed containers. Dispose of in accordance with Federal, State/Provincial, and Local regulations regarding pollution.
US EPA HAZARDOUS WASTE NUMBERS:	None

#### **SECTION 14 – TRANSPORT INFORMATION**

The data provided in this section is for information only and may not be specific to your package size or mode of transport. You will need to apply the appropriate regulations to properly classify your shipment for transportation.

US GROUND (DOT):	May be Classed as a Combustible Liquid for U.S. Ground. UN1263, PAINT, 3, PG III, (ERG#128)		
DOT (Dept. of Transportation) HAZARDOUS			
SUBSTANCES & REPORTABLE QUANTITIES:	Xylenes (isomers and mixture) 100 lb RQ		
Bulk Containers May Be Shipped As	UN1263, PAINT, COMBUSTIBLE LIQUID, PG III, (ERG#128)		
(check reportable quantities):			
CANADA (TDG):	May be Classed as a Combustible Liquid for Canadian Ground. UN1263, PAINT, 3, PG III, (ERG#128)		
IMO:	5 Liters (1.3 Gallons) and Less may be Shipped as Limited Quantity. UN1263, PAINT, CLASS 3, PG III, (39 C c.c.), EmS F-E,		
	S-E		
IATA / ICAO:	UN1263, PAINT, 3, PG III		

#### **SECTION 15 – REGULATORY INFORMATION**

**SARA 313:** Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product contains a chemical(s) which are subject the reporting requirements of the Act and 40 CFR Part 372:

CHEMICAL COMP	PONENT	CAS NO.	% by Weight
*** NO REPORTA	ABLE QUANTITIES OF HAZARDOUS I	NGREDIENTS ARE PRESENT *	**
TSCA 12 b:	All chemicals in this product are listed, or are exempt from listing, on the		
CALIFORNIA PROPOSITION 65:	TSCA Inventory. Warning: This product contai	ns chemicals known to th	e State of California to
CALII ONNIA PROPOSITION 05.	cause cancer and birth defect		

# **SECTION 16 – OTHER INFORMATION**

This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

NON-WARRANTY: The information presented in this publication is based upon the research and experience of Richard's Paint. No representation or warranty is made, however, concerning the accuracy or completeness of the information presented in this publication.
