Superior coatings by

250 RICH FLEX
Elastomeric
Waterproof Vertical
Wall Coating

Rich Flex Elastomeric Coating Protects Buildings
from the destructive effects of water and moisture.

MASONRY FINISH

Rich Flex 100% Acrylic Elastomeric Masonry Waterproof Coating creates an effective barrier to water intrusion from wind driven rain up to 100 miles per hour.

This high build acrylic coating is an ideal choice for exterior stucco, concrete block, poured concrete and masonry walls and brick.

It bridges hairline cracks and remains breathable, allowing moisture vapor to pass through the coating.

Provides outstanding durability, flexibility, color retention, weather resistance and mildew resistance.

Formulated to meet Federal Specification TT-C-555B for resistance to wind driven rains.

For exterior above ground use.

- 100% Acrylic Formula
- Resists Fading and Chalking
- High Build Finish
- Resists Sagging
- Bridges Hairline Cracks
- Weather Resistant
- Mildew Resistant
