Wall Paint

RichPro™ SELECT

Built for fast turns, easy touch-up, and ultra-flat results.

Pro painters' go-to for dependable hide, smooth application, and a clean, uniform look.

RichPro SELECT Interior Latex Flat is made for the everyday demands of new construction and multi-family repaint work. Its ultra-flat finish helps reduce the appearance of minor surface imperfections while delivering the kind of consistent results professionals need across apartments, rentals, and other high-volume interior spaces.

Designed for speed and simplicity on the job, RichPro SELECT applies easily by brush, roller, or airless spray and provides good wet and dry hiding to help move projects along efficiently. It offers excellent touch-up, making it a smart choice for punch-out work, maintenance repainting, and occupied units where a seamless final appearance matters.

Ideal Applications:

- New construction
- Multi-family repaint
- Apartment Turns
- Property maintenance
- Ultra-flat finish minimizes surface imperfections
- Excellent touch-up supports punch lists and unit turns
- Good wet and dry hiding helps deliver a uniform appearance
- Easy application keeps crews moving efficiently
